

ECVO Annual Scientific Meeting

Virtual Meeting - 20 - 23 May 2021

Continuing Education Day

Uveal Disease

Saturday, 22 May 2021, 09:00-15:30h (CEST)

Session 1: Diagnosis and Genetic Basis of Intraocular Inflammation (Uveitis).

- 09:00 Introduction (R. McMullen)
- 09:10 Diagnostic Approaches to Uveitis in Humans
Classifications of Uveitis: Anatomical Classification, Classification by Type of Inflammation, Infection and Autoimmunity (S. Thurau)
- 09:50 The Genetics of Uveal Diseases: How Can Genetic Testing Help Manage Clinical Cases (R. Bellone)
- 10:20 Break

Session 2: Pathologic Condition of the Uvea.

- 10:50 Uveal Neoplasia – Current Knowledge (L. Texeira)
- 11:25 Non-Neoplastic Uveal Diseases – Current Knowledge (L. Texeira)
- 12:00 Uveal Cysts in Horses (R. McMullen)
- 12:20 Break

Session 3: Intraocular Inflammatory Diseases and Treatment (Uveitis).

- 13:20 Pigmentation: A Pathologist's Perspective (K. Linder)
- 14:10 Ocular Melanosis – Diagnosis and Treatment (S. Peterson-Jones)
- 14:35 The Immunology Behind Uveitis and the Present Treatment of Human Uveitis
Corticosteroids, Cyclosporin, Mycophenolates, Biologics (TNF-Blocker)
(G. Wildner)
- 15:30 End
