

# ECVO Annual Scientific Meeting

Virtual Meeting – 20 - 23 May 2021

## Masterclass on Uveal Disease

Sunday, 23 May 2021, 08:00-15:40h (CEST)

### Session 1

- 08:00 Introduction (R. McMullen)
- 08:10 Diagnostic Approaches to Uveitis in Humans  
*Imaging, Angiography, Collecting Specimens for Diagnostic Purposes: PCR and Serological Approaches* (S. Thurau)
- 09:00 Current Genetic Investigations of Uveal Disease with a Focus on the Horse (R. Bellone)
- 09:35 Diagnostic Workup for Horses with Uveitis (R. McMullen)
- 10:00 Break

### Session 2

- 10:30 Pigment from Development to Disease – Applications for Uveal Disease (K. Linder)
- 11:20 Ocular Melanosis – Disease Mechanism and Comparative Aspects (S. Petersen-Jones)
- 11:45 Uveal Neoplasia – a Pathologist's Perspective (L. Texeira)
- 12:35 Break

### Session 3: Future Therapies.

- 13:30 Non-Neoplastic Uveal Diseases – Clinical Microscopic Correlation (L. Texeira)
- 14:20 Current Treatment Approaches to Uveal Diseases in Humans  
*Local and Intraocular Treatment* (S. Thurau)
- 14:55 Immunopathogenesis and Novel Therapeutic Approaches  
*News from Our Experimental Model of Rat Uveitis (Spontaneous Relapsing vs. Monophasic, Chronic Disease, What are the Differences) and Our Latest Therapeutic Approaches (Small Molecule DHODH Inhibitor)* (G. Wildner)
- 15:30 End
